

COUNT BELCHILGEN, M. D.

(Formerly Physician to Maria Theresa Queen of Hungary, and Knight of St. John of Jerusalem)

FIRST BROUGHT

GINSENG TEA

INTO USE,

As a Beverage for all Nervous Complaints.

TO be drank in the Stead of Green and Bohea Tea, which brings on the following Disorders; Spasms, Palfies, and Scrophulous Diseases, &c. &c. On the contrary, Ginseng Tea warms and invigorates the Blood and Juices, which before were almost cold and lifeless; it nourishes and strengthens the Liver, and repairs the broken Constitution.

The following Physicians have recommended it: Dr. Lettsom, Dr. Fox, and most of the Physicians of Eminence in England, Ireland, Scotland, &c. and the three Universities of Oxford, Cambridge, and Edinburgh.

GEORGE HOLSTON, Esq; maketh Oath and faith, that he was afflicted with a dreadful Nervous Disorder for above Thirty Years, and which had baffled every Effort and Skill of the ablest Physicians, so that he despaired of ever having any Relief: he was recommended to use the Ginseng Tea as a Substitute for other Tea, and it has perfectly restored him to his health.—Sworn, the 14th Day of February, 1793, before Sir James Sanderson, Knt. Lord Mayor of London.

Witnesses to this Cure: Lord Edward George Crawford; Hon. John Marshall, Colonel of the 95th Regiment; Seymour Poulter, Esq; Captain in the 61st Regiment; Theodore Martin, Esq; Captain in the Guards.

 Please to observe, the ORIGINAL GINSENG TEA is only to be had of Dr. Cope, at his House, No. 26, Great Bartholomew-Close; and, by his Appointment, at Mr.  Randall's) Royal-Exchange Gate; at 1s. and 2s. Papers.—The 4s. Papers are only to be had at the Doctor's.

The Reason why Persons are so much troubled with Nervous Complaints is easily accounted for, as the Teas are not pure and wholesome: The Rough Tea, called Black Tea, is Sloe and Ash Leaves, and Smouch, steeped in a pernicious Liquid, and dried upon Kilns; the Green Tea is the Black Tea dyed Green with Verdigrease, or a Colour called Dutch Pink.—Dr. Lettsom tried an Experiment upon a Piece of Beef newly killed, which he put into a little of the Water which he distilled from Tea, and in Forty-eight Hours the Beef was putrified; he tried it again upon a Frog, and the Frog was immediately seized with the Palsy, and died.

A Lady, who had a Contraction in her Hip on the right Side (she had been Lame above Fifteen Years) about a Month since was seized with the Dead Palsy, which took away her Speech and confined her to her Bed: In One Week she came to her Speech, and her Limbs have come to, so that she can walk without Assistance, in the Time above-mentioned, by the Doctor, as above.

N. B. Sir Wm. Fordyce's Grand Restorative Pills, which infallibly cure those dreadful Disorders brought on by Onanism, at 1l. 1s. per Box, 10s. 6d. and 5s. 6d.

To the Female Sex.—His Grand Restorative for Women at a certain Period (this Disorder destroys Thousands) in Bottles, at 1l. 1s. 10s. 6d. and 5s. 6d.—These Medicines may be sent to any Part of Europe.

* * Ginseng Tea is to be drank the same as the other Tea. One Tea-spoonful makes a Breakfast for one Person; add more, as you have Occasion.

Letters (Post paid) duly attended to by Dr. COPE, N° 26, Great Bartholomew-Close.
